### Visa Card Information

Learning to manage credit is critical to keeping your finances in order. If you are 16 years of age, a parent or guardian must apply for the card, and then request a card in your name. Your parent/guardian must request a \$200.00 credit limit and ask to have your information reported to the credit bureau. If you are 18 years of age, you will be issued a card in your name. You should request a \$500.00 credit limit. By starting out with low limits, you will learn how to manage your credit without getting into debt, establishing a trail of on time payment histories, and learning how manage debt responsibly. This will then help you establish yourself as a "good" credit risk for future credit applications.
